Hukumu Interview   
Masai

# Prince Kumar

## Full Stack Web Developer

## Professional Summary

Innovative Full Stack Web Developer with proficiency in the MERN stack (MongoDB, Express.js, React.js, Node.js) and adept at designing robust server-side APIs. Strong problem-solving skills and a keen eye for detailed debugging. Skilled in leveraging Generative AI and rapidly learning new technologies.

## Projects

### BlueFly Clone [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- CSS3
- React
- Node.js
- Express.js
- MongoDB
- Responsive Web Design
- RESTful APIs

- Developed a full-stack e-commerce application inspired by Bluefly using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication and authorization for secure access and personalized user experiences.
- Created a dynamic product detail page to showcase product information and facilitate purchasing decisions.
- Designed and implemented a responsive front-end ensuring optimal user experience across devices.
- Developed an Admin Panel for managing product inventory, user accounts, and site content efficiently.

### Beauty Bebo Clone

[Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- CSS3

- Developed the Beauty Bebo website clone using HTML, CSS, and JavaScript, ensuring functional and scalable front-end components.
- Implemented responsive design principles to provide an optimal browsing experience across various devices and screen sizes.
- Optimized website performance to achieve fast loading speeds and enhance the overall user experience.
