Hukumu Interview

Masai

Prince Yadav

Full Stack Web Developer

Professional Summary

Motivated and detail-oriented SQL & .NET Developer with expertise in database management and application development. Proficient in SQL, C#, ASP.NET, and RESTful APIs. Skilled in writing efficient queries, stored procedures, and optimizing databases. Strong problem-solving and collaboration skills, with experience using Git. Eager to contribute technical expertise to dynamic development teams.

Projects

Myntra Clone [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- CSS3
- React
- Responsive Web Design
- RESTful APIs
- Node.js
- Express.js
- MongoDB

- Developed a full-stack e-commerce application inspired by Myntra using the MERN stack, implementing secure user authentication with JWT and Bcrypt.
- Designed a responsive front-end adhering to mobile-first design principles, enhancing user experience across all devices.
- Integrated RESTful APIs to handle e-commerce functionalities such as product management, user interactions, and cart updates.

BlueFly Clone [Live Demo Link](#) [Github Repo Link](#)

- JavaScript
- HTML5
- CSS3
- React
- Responsive Web Design

- Developed a full-stack e-commerce application using the MERN stack, ensuring scalable and maintainable architecture.
- Collaborated on designing responsive user interfaces with React.js for optimal cross-device experiences.
- Implemented secure user authentication and authorization to protect user data and provide personalized features.
- Created and optimized MongoDB database models and queries to efficiently handle e-commerce transactions.
